

“ Making the decision to study in Rennes School of Business was easy after learning about the School's international outlook and the demographics of the City of Rennes, which is largely populated by students from different continents of the world and with many higher institutions of learning. While living in Rennes I also discovered a peaceful and serene environment - the size of the city is perfect for its population and basic amenities, making for an ideal student life.

Abdullahi Abbas, Nigerian student

# MSc IN INTERNATIONAL ACCOUNTING, MANAGEMENT CONTROL & AUDITING

## BECOME THE MOST-TRUSTED BUSINESS PROFESSIONAL

Accounting is the language of a business that can reveal its financial future, if interpreted correctly. Unfortunately, there is a dearth of professionals who can read and write this highly-useful language of Accounting. This is even more disturbing given the increasing creativity in financial reporting by modern-day corporations and the massive scandals that follow. This is exactly where the IAMCA fits in.

This specialized Masters provides its students with in-depth knowledge of not only Financial Accounting, but also International Taxation, Management Accounting, Finance and Auditing. This broad vision of things helps them gain an overall perspective of the way financial reporting works within a business and also opens doors for students to pursue the field of their choice after graduation. Ex-IAMCA graduates have successful careers as accountants, auditors and financial consultants.

At Rennes SB, we are looking for dynamic and self-driven students to share their country-specific expertise and undertake a collective journey towards becoming a global accounting expert.
