

I was very lucky to be able to study my master's degree at Rennes Business School! There are world-class excellent professors here, and the setting of courses closely follows the dynamics of market trend. A variety of lectures, talks, group projects, etc. allowed me not only to learn advanced knowledge, but also to improve my soft skills such as speaking and teamwork. The career coaching and recruitment platform provided by the school allowed us to go one step further from our dreams. After graduation, with my study experience, skills and degree at Rennes Business School, I successfully got a job opportunity in Prada. I am very grateful to the school.

MSc IN INTERNATIONAL NEGOTIATION & BUSINESS DEVELOPMENT

NEGOTIATE TO WIN

This programme is designed to give students the skills and techniques to enable them to understand and function in a global business environment and progress in their careers. Today, virtually everything we do in life involving people includes negotiation. Successful negotiation does not necessarily mean to win, the other party has to lose.

A good negotiator will work towards a win-win scenario because they are able to fly above the situation and see what is driving the other party. Making the other party look good and giving them a win can also be good for building stronger professional relationships and closing better deals.
